PROFESSIONAL SUMMARY

Motivated Full Stack Developer with hands-on experience in the MERN stack, building scalable and responsive web applications. Proficient in React.js, Node.js, Express.js, and MongoDB, with a strong foundation in RESTful API development and modern UI frameworks. Seeking a full stack internship at a dynamic startup or software house to contribute to real-world projects and grow as an engineer.

SKILLS

Frontend	React.js, Tailwind CSS, Bootstrap, HTML5, CSS3
Backend	Node.js, Express.js, MongoDB, Supabase, REST APIs, PostgreSQL, MySQL
Languages	JavaScript (ES6+), Python
Tools & Platforms	Git, GitHub, Figma, Postman, VS Code
Concepts	Agile/Scrum, OOP, Data Structures & Algorithms, Responsive Web Design

WORK EXPERIENCE

Software Engineer Intern

Aug 2023 - Oct 2023

Loftex Limited — Lahore, Pakistan

- Developed and optimized custom SAP ERP reports and interfaces using ABAP, tailoring the system to meet textile manufacturing departmental requirements.
- Improved data processing performance by debugging and tuning SQL queries and internal tables, reducing report generation time for large-scale inventory datasets.
- Automated previously manual data extraction tasks by designing ALV (ABAP List Viewer) reports, improving data accuracy and operational efficiency for key stakeholders.

PROJECTS

MediScan – AI Disease Detection System

Python • ML • HTML • CSS • JS

- Built an intelligent healthcare diagnostic tool processing user-provided symptoms through a trained ML classification model to identify probable diseases with high-accuracy pattern recognition.
- Designed a scalable backend pipeline integrating medical datasets, enabling rapid data-driven health risk assessment and demonstrating practical ML application in digital health workflows.

Resume Builder – ATS-Optimized Web App

MongoDB • Express.js • React.js • Node.js

- Developed a full-stack MERN application that dynamically maps user credentials into structured, ATS-friendly resume formats, optimizing keyword placement to improve recruiter screening pass rates.
- Implemented clean typography and machine-readable output formatting, balancing visual appeal with technical compliance for modern recruitment systems.

EDUCATION

BS Computer Science

2022 - 2026

University of Central Punjab (UCP) — Lahore, Pakistan

CERTIFICATIONS & COURSES

Full-Stack Web Development — NexSkill

AI / Machine Learning — NAVTTC

Machine Learning Specialization — Coursera, Andrew Ng

Building with Claude API — Anthropic
